

ROYPOW

Lithium Golf Cart Battery

S38100LRXP0A (H01-1914)

The 36V ROYPOW LiFePO₄ battery system delivers industry-leading durability and performance for golf carts, utility vehicles, AGVs, and LSVs. Engineered for fleets and heavy daily use, 36V ROYPOW batteries combines long cycle life, lightweight construction, and robust temperature tolerance to reduce downtime and total operating cost. With 4,000+ life cycles, up to 3× the lifespan of conventional lead-acid batteries, lighter, and more powerful design, it's engineered for more rounds of golf.

Benefits

Staightforward installation, no modification

Fast Charging

All guaranteed 5-year warranty

Up to 10 years design life

Less wear & tear, and lower maintenance costs

4000+ life cycles

Up to 8 months storage with full charge

High energy density for extended range

Product Specifications

Nominal Voltage / Discharge Voltage Range	36V (38.4V)	Nominal Capacity	100 Ah
Stored Energy	3.84 kWh	Dimension(L×W×H)	390 x 275 x 276 mm
Weight kg (No Counterweight)	≤47 kg	Maximum Charge / Discharge Current	100 A / 300 A
Continuous Charge / Discharge Current	30 A / 100 A	Discharge	-20°C~55°C
Charge	0°C~55°C	Storage (1 Year)	0°C~35°C
Storage (1 month)	-20°C~45°C	IP Rating	IP67
Casing Material	Steel
